Notes: Next Page

Notes:

1. The following functions can be customized by the customer (*Pro* version only) using the AdMore Connect App (Android or iOS):
   a. Accelerometer sensitivity
   b. Brake light brightness
   c. Brake light modulation (number of flashes)
   d. Brake light modulation (speed of flashes)
   e. Tail light brightness
   f. License plate LED
   g. Turn signal type
   h. White strobe LED
2. For use in above-license plate installations where the OEM license plate light is blocked by the Light Bar (*Pro* version only)
3. Not compatible with motorcycles with rear turn signals that are RED.
